N Acetyl Cysteine as a Way of Reducing Tremors

N Acetyl Cysteine increases the activity of acetylcholine by decreasing acetylcholinesterase (the substance that breaks down acetylcholine)

<https://www.sciencedirect.com/science/article/pii/S0009279716301491>

It is therefore possible that taking N Acetyl Cysteine will reduce tremors and restore movement.

Covid Autopsy???:

BREAKING NEWS Big news of the world,

Italy did postmortem of dead corona patient, big revelation happened

Italy has become the first country in the world to perform an autopsy (postmortem) on a dead body from a Covid-19 and, after a comprehensive investigation, has discovered that the Covid-19 does not exist as a virus, but a very large one. Is a global scam. People are actually dying due to "Amplified Global 5G Electromagnetic Radiation (Poison)".

Doctors in Italy have violated World Health Organization (WHO) law, which does not authorize autopsies (postmortem) on the bodies of people who have died from the corona virus in order to find out after some kind of scientific discovery. It cannot be assumed that it is not a virus, but a bacterium that causes death, which causes blood clots to form in the veins, i.e. blood clots in the veins and nerves due to this bacterium and this is the patient Causes the death of.

Italy has beaten the virus, stating that "there is nothing but phelia-intravascular coagulation (thrombosis) and the way to deal with it is to cure it."

Antibiotics tablets

Anti-inflammatory and

Taking Anticoagulants (Aspirin) cures it.

And indicating that a cure for the disease is possible, this sensational news for the world has been prepared by Italian doctors by autopsy (postmortem) of corpses from the Covid-19 virus. According to some other Italian scientists, ventilators and the Intensive Care Unit (ICU) were never needed. Protocols for this have now been issued in Italy.

CHINA already knew about it but never made its report public.

Please share this information with all your family, neighbors, acquaintances, friends, colleagues so that they can get out of the fear of Covid-19 and understand that this is not a virus at all but just a bacterium that is exposed to 5G radiation. The cause is harming people who have very low immunity. This radiation also causes inflammation and hypoxia. Those who fall prey to this should take Aspirin-100mg and Aspirin or Paracetamol 650mg. Why... ??? क. Because it has been shown that covid-19 causes blood to clot which causes thrombosis to the person and due to which blood clots in the veins and due to this the brain, heart and lungs cannot get oxygen due to which the person Breathing becomes difficult and a person dies quickly due to shortness of breath.

Doctors in Italy disobeyed WHO's protocol and performed autopsies on corpses that had died of covid-19. Doctors opened the arms, legs and other parts of the body and after examining and examining them properly, they noticed that the blood vessels were dilated and the veins were full of thrombi, which usually stopped the blood from flowing. And also reduces the flow of oxygen into the body which causes the patient to die. After learning of this research, the Italian Ministry of Health immediately changed the treatment protocol of Covid-19 and gave aspirin to its positive patients. 100mg and started giving Empromax. As a result, the patients started recovering and their health started showing improvement. The Italian Ministry of Health discharged more than 14,000 patients in a single day and sent them home.

Abstract

A previously symptomless 86-year-old man received the first dose of the BNT162b2 mRNA COVID-19 vaccine. He died 4 weeks later from acute renal and respiratory failure. Although he did not present with any COVID-19-specific symptoms, he tested positive for SARS-CoV-2 before he died. Spike protein (S1) antigen-binding showed significant levels for immunoglobulin (Ig) G, while nucleocapsid IgG/IgM was not elicited. Acute bronchopneumonia and tubular failure were assigned as the cause of death at autopsy; however, we did not observe any characteristic morphological features of COVID-19. Postmortem molecular mapping by real-time polymerase chain reaction revealed relevant SARS-CoV-2 cycle threshold values in all organs examined (oropharynx, olfactory mucosa, trachea, lungs, heart, kidney and cerebrum) except for the liver and olfactory bulb. **These results might suggest that the first vaccination induces immunogenicity but not sterile immunity.**

We suggest that a single treatment with BNT162b2 RNA vaccine elicited significant immunogenicity, as reflected in the reported spike protein-based neutralizing IgG serum values.

From the weeks before vaccination, through vaccination (day 1), to shortly before death (day 24), the patient was free of any clinical symptoms typically ascribed to COVID-19. Furthermore, blood work did not show an IgM titer that is generally observed 7–14 days after symptom onset (Kim et al., 2020). However, the patient tested SARS-CoV-2 positive. Both the Ct value measured in nasopharyngeal swab and values measured in formalin-fixed paraffin-embedded autopsy specimens indicate viral load and suggest transmissibility. Because our patient died approximately 2 days after his first positive SARS-CoV-2 test result, we suppose that the molecular mapping data reflects an early stage of viral infection. An early stage of infection might also explain why different regions such as the olfactory bulb and liver were not (yet) affected by systemic viral spread.

We did not observe any characteristic morphological features of COVID-19 reported in comprehensive morphological autopsy studies so far (Schaller et al., 2020, Edler et al., 2020, Ackermann et al., 2020). We did not find any typical signs of diffuse alveolar damage in the lungs, but we identified extensive acute bronchopneumonia, possibly of bacterial origin. We concluded that the patient died from bronchopneumonia and acute renal failure.

Vaccines lead to new infections:

https://www.globalresearch.ca/covid-19-vaccines-lead-to-new-infections-and-mortality-the-evidence/5746393?fbclid=IwAR3uDrI_y3WgTJgCGjSFB3SgJDiG1EhvtrWxpYRJKeBil3aB2y1Y9zNbc7A

Lets address the lie Facebook is propagating that the spike protein in the quackzine is not harming people. Studies have shown the spike protein in Sars-Covid alone could cause cardiovascular damage. Most man made things have caused even more harm then the natural versions, so how much more harmful will the spike protein in the quackzine be?

<https://www.ahajournals.org/doi/10.1161/CIRCRESAHA.121.318902>

Now lets add to that fact that the quackzines cause a person to become TH1 dominant which causes high TH17 levels. This causes excess blood clotting and neurological damage meaning the brain is getting damaged from diminished blood flow and from high TH17 levels. So not only is it worse then getting Sars-Covid because it is dramatically increasing the risk of neurological damage and cardiovascular disease.

<https://pubmed.ncbi.nlm.nih.gov/32877576/>

<https://www.sciencedirect.com/science/article/abs/pii/S0149763413000286>

The nano particles they use in the quackzines has been shown to travel to every part of the body in previous quackzine studies. So imagine what these quackzines are doing because in the studies it sometimes took many months for the animals to suffer the full ill health effects of their vaccines before they did. By that time they will blame the deaths on something else. <https://www.ncbi.nlm.nih.gov/pmc/articles/PMC5475249/>

https://www.ema.europa.eu/en/documents/assessment-report/covid-19-vaccine-moderna-epar-public-assessment-report_en.pdf

Looks like it increases TH2 response also so in other words the quackzines pretty much turn the body on itself and the person will die a slow miserable death over the months or possibly a few years.

<https://journals.plos.org/plosone/article?id=10.1371/journal.pone.0035421>

<https://pubmed.ncbi.nlm.nih.gov/22536382/>

Now keep in mind this RNA used in the vaccines are self replicating so as time goes by these people will become sicker and sicker but by the time it kills them they will blame it on something else. <https://pubmed.ncbi.nlm.nih.gov/34001897/>

Past attempts at designing RNA quackzines resulted in slow and eventual respiratory failure, cardiovascular disease and dementia. So now you will know what to look for in those who have had the quackzine and when they lungs collapse, they have heart failure or develop dementia you will know they have been quackzine injured.

<https://pubmed.ncbi.nlm.nih.gov/21937658/>

<https://pubmed.ncbi.nlm.nih.gov/21937658/>

So lets see they make a psuedo spike protein just like they have in the quackzines and guess what happened it damaged the lungs , brain and other organs in the animals. So what do you think is happening right now in those who got the quackzine? If the spike protein alone is enough to cause damage and the quackzine is designed to have the body produce the spike protein? Can you see the picture being painted here. They can lie all they want but when you look at the science odds are the quackzines are slowly killing these people and they don't even know it. Now some 20% got the placebo so would not be affected and they do not know it so of course the placebo group will be saying I got the vaccine and it didn't harm me. <https://www.ahajournals.org/doi/10.1161/CIRCRESAHA.121>

<https://pubmed.ncbi.nlm.nih.gov/15507655/>

<https://childrenshealthdefense.org/news/modernas-guinea-pig-sickest-in-his-life-after-being-injected-with-experimental-vaccine/>

<https://pubmed.ncbi.nlm.nih.gov/14963300/>

Now we know the government and pharmaceutical industry will fudge the numbers to hide the harm the vaccines are doing. For example HPV vaccine increased the risk of autoimmunity and cancer but they fudged the numbers to hide that fact this is not the first time they have done that so you can be sure they are fudging the numbers now.

<https://pubmed.ncbi.nlm.nih.gov/28730271/>

We also have to consider the fact that up to 80% of vaccines have been found to be contaminated with mold, viruses and other infectious agents because they contain aborted fetal

tissue or animal tissue which has been contaminated. <https://archive.org/details/investigatingvirusesincellsusedtomakevaccinesandevaluatingthepotentialthreatpose>
